## January 2021 Construction Update

Dear Devotees and Triad Community Members,

### Construction Update:

Site development and the construction of Balalayam are close to completion. Due to unprecedented rains and other COVID related delays, the completion and final inspection have been pushed to early February. The work on the under slab utilities, concrete slab, metal studs and wall framing work for the balalayam were completed. The exterior EIFS and interior work (flooring, painting) for the Balalayam were delayed and are now expected to start next week. The grading/leveling work in the north and south parking lots were completed with final asphalt expected to start once the ground dries. Duke power has been delayed which further delayed completion of construction. We have signed the contract for Phase 2A which should kickstart in February. As we near completion of balalayam construction, please stay tuned to updates on Balalayam opening ceremony and THT's move in the next month's newsletter.
